

Participation Data Report

The South Carolina Forum is a cross-partisan, statewide initiative that empowers South Carolinians to share their priorities and shape the future of the state. This report summarizes participation activity in the first phase (January-April 2026) of our multi-phase process, capturing demographic information, and engagement activity from residents across all four regions.

Overall Participation

Total South Carolinians who have contributed ideas and other feedback so far, during our initial issue mapping phase:

Contributors to date: 13,192

Views & Actions

How contributors have engaged with the digital platform to date, through ideas, reactions, comments, and content views.

69,815 Visitors to Date	30,018 Total Actions	21,921 Reactions	1,241 Ideas Submitted	286 Comments
-----------------------------------	--------------------------------	----------------------------	---------------------------------	------------------------

Demographics

Demographic data collected to date; reflects only contributors who have opted to share this information.
